

RIECO TITAN

TRIPOD CAMPER JACKS

GEARS & BEARINGS

Gears - Large, stronger, full 18 tooth gears for added strength and durability.

Bearings - 3 permanently lubricated guide bearings plus one master thrust bearing.

DURABILITY

Heavy bright plating for maximum corrosion resistance

CONSTRUCTION

Strong, electronically controlled welds give added strength, yet maintain a neat appearance

STABILITY

Extra strong 3-leg tripod plus large area pads minimize soft, "sink-in" problems

SPECIFICATIONS

Minimum height is 38"
Maximum height is 60"

HEAVY DUTY
2000 lb. capacity
per jack

WON'T SLIP
OFF HANDLE,
YET EASILY
REMOVABLE

STANDARD
1000 lb.
capacity
per jack

The Rieco-Titan Camper Jack is precision engineered for long life and troublefree operation. Its rugged, all-steel construction is built to take it. It handles easily, is neat in appearance, and, when folded, the tripod presents a compact package for easy storing.
